

## D3R - March status

Submitted by hconover on Fri, 2013-03-22 10:32

Date:

Friday, March 22, 2013 - 10:30

### Instrument List:

- [Yellow](#)

Discussion:

will begin setup Apr 18-20th

scanning priority typically defining the column (e.g., coordinated RHI sector volumes w/ NPOL)

Would like NPOL to do 5 RHIs in 10deg sector after RAIN PPIs, but need to define sector time windows

Chandra is going to write up some notes on strategy
